Dear (school):

We at (center name) are writing to inform you that we are offering live ultrasound presentations in schools, churches, religious education programs and youth groups – empowered by Heart of a Child Ministries.

Heart of a Child Ministries is a Nebraska-based, nationally recognized, pro-life education ministry started in 2012 that brings *live ultrasound education* into schools with professional sonographers, master's level social workers and pregnant volunteers. They train other organizations, like our center, to bring live ultrasound education into their states using their **4S** model of education - sharing **S**cripture, **S**cience, **S**tories and **S**ervice. Through (your center's name) your students can have the awesome opportunity to see the miracle of life in the womb, listen to the heartbeat, learn fetal development facts, explore related Scripture, and witness the testimony of a powerful life-affirming speaker of your choice.

To learn more, please refer to the attached brochure and go to [www.heartofachildministries.org/\(your link\)](http://www.heartofachildministries.org/(your link)) to watch the video trailers of our presentations.

Also, please contact (your name and contact info) to book a presentation or find out more.

Thank you,

Your name and info

Testimonial from high school teacher who witnessed Heart of a Child Ministries presentation:

Heart of a Child ministries gave the most positive and life affirming presentation of the pro-life message I've ever seen. There was no condemning or judging of people, only compassion and a desire for all people to be loved and supported as God wills. As a campus minister and theology teacher of fifteen years, I highly recommend Heart of a Child Ministries.
